Twelve Figures in Swedish Economics

Mats Lundahl 2022-04-01 This book explores the development of economic thought in Sweden through some of the people who shaped it. The book highlights both some of the well-known contributions and some overlooked areas of research. It begins with the origins of the pioneer neoclassical Heckscher-Ohlin theorem and Gunnar Myrdal 's circular, cumulative approach to economic development. Secondly, it focuses on a number of economists related to the Industrial Institute of Economic and Social Research: Ingvar Svennilson, Axel Iveroth, Jan Wallander, Erik Höök, Villy Bergström and Rolf Henriksson. Finally, it offers portraits of three economists from Lund University: Bo Södersten, Ingemar Ståhl and Göte Hansson. The work of all of them is placed within the context of the contemporary academic and public economic debate. This book aims at providing a perspective on the legacy of the Swedish tradition in economics and will be relevant to students and academics interested in the history of economic thought.

Remaking America Sven R. Larson
2010-09-02 Despite the American left's admiration of the Swedish

welfare no one has told its true story yet. Until now. Sven R Larson reveals the dark side of the welfare state: how government-run health care turns patients into budget items and corpses, how government defaults on promise after promise, crime is rampant, 500 schools are burned to the ground every year and children grow up with no loyalty to their country. Larson explains how politicians turn to fiscal fascism to save the welfare state from the people who depend on it.

About Dagens Nyheter 1984

Small State Status Seeking Benjamin de Carvalho 2014-09-15 Status-seeking is an important aspect of the foreign policies of a number of small states, but one that has been rarely studied. This book aims to contribute to our understanding not only of status-seeking, by coming at that question from a new angle, that of a small state, but also to our understanding of foreign policy, by discussing the importance of status for foreign policy overall. If status is a hierarchy, then it is important to focus not just on the highest-ranking powers, but also those at lower levels. As the distribution of power is becoming more diffuse, the role of small and medium powers becomes more significant than it was during the Cold war. The book chapters go beyond familiar explications of "soft power"

or conflict resolution to highlight new aspects of Norway's foreign policy, including contributions to national defense, global warming, and management of Arctic resources. This book will be of interest to students and scholars in areas including US Foreign Policy, International Relations and European Politics.

Research Handbook of Policy Design

Peters, B. G. 2022-04-08 This visionary Research Handbook presents the state of the art in research on policy design. By conceiving policy design both as a theoretical and a methodological framework, it provides scholars and practitioners with guidance on understanding policy problems and devising accurate solutions.

ITF Round Tables Implementing Congestion Charges International Transport Forum 2010-08-31 Recent advances in the scientific understanding of urban traffic congestion have only strengthened the already solid case for congestion charges as an element of a successful urban transport policy. This report draws lessons from attempts to introduce congestion charges.

Single Mothers and the State Celia Winkler 2002 U.S. welfare rights activists have long envied women in Sweden, who benefited from social policies that made the incidence of poverty among children and solo mothers among the lowest in the world. This situation has begun to change with the rise of neoliberalism in Sweden from the late 1970s to the middle of the 1990s; social policy that had once dramatically improved the lives of solo mothers began to give way to policies that privatized their problems. Solo mothers in the United States were worse off, as conservative policymakers launched a clamorous campaign to restore the "traditional nuclear family" as the only guarantor of women's and

children's well-being, blaming solo mothers for everything from juvenile crime to their own poverty. In this revealing and timely book, sociologist and former legal services attorney, Celia Winkler, charts the policies in Sweden and the United States that transformed the social and economic situation of solo mothers, who are an early warning of more general danger: the canary in the coal mine.

Extreme Right Parties in Scandinavia

Anders Widfeldt 2014-08-27 "The book tracks and explains the success of extreme right parties in Scandinavia, and argues that the key explanatory factors can be found in the parties themselves"--

Even in Sweden Allan Pred 2000-11-21 Allan Pred writes compellingly about the reawakening of racism throughout Europe at the end of the twentieth century—even in Sweden, a country widely regarded as the very model of social justice and equality. Many thousands of non-European and Muslim immigrants and refugees who took advantage of Sweden's generous immigration policies now find themselves the object of discrimination and worse. Through the cascading juxtaposition of many voices, including his own, Pred describes the intensifying cultural racism of the 1990s, the proliferation of negative ethnic stereotypes, and the spatial segregation of the non-Swedish. He quotes the newspaper *Dagens Nyheter*: "It is high time that Sweden reconsider its self-image as the stronghold of tolerance" (July 21, 1998), and analyzes the strategies that allow people to maintain that self-image. Perhaps the greatest strength of *Even in Sweden* is that Pred gives to the social consequences of global economic restructuring some very specific faces and places and a multitude of expressions of human

will, both ill and good.

Mass Challenge Tino Sanandaji

2020-09-26 This book addresses the socioeconomic effects of immigration to Sweden. Historically, Sweden was a homogeneous country. In recent years, this has changed dramatically as Sweden has received more refugees per capita than any comparable country: this makes Sweden an interesting case study for analyzing the social and economic impact of refugee migration to European welfare states. The book highlights the long-term effects of low-skilled immigration to welfare states, while tying this to the broader European experience. Much of the public discussion of immigration in the West has focused on the American experience, which differs significantly from refugee migration to European welfare states. Research has shown that immigration is not a unitary phenomenon, and that its social and economic effects depend both on the type of migrants and on the receiving country. As demonstrated in the book, European welfare states have fairly similar outcomes with regard to refugee migration, but with differences in degree and the scale of migration. Their experience, however, contrasts with American outcomes as well as with high-skilled migration to Europe. This book is a translated, updated, and expanded version of the successful Swedish original entitled *Massutmaning* (2017). This book is translated by Jonas Vesterberg and edited by Pontus Tholin.

The Future of Journalism Bob Franklin

2013-09-13 The future of journalism is hotly contested and highly uncertain reflecting developments in media technologies, shifting business strategies for online news, changing media organisational and regulatory structures, the fragmentation of audiences and a growing public concern about some aspects of tabloid

journalism practices and reporting, as well as broader political, sociological and cultural changes. These developments have combined to impoverish the flow of existing revenues available to fund journalism, impact radically on traditional journalism professional practices, while simultaneously generating an increasingly frenzied search for sustainable and equivalent funding – and from a wide range of sources - to nurture and deliver quality journalism in the future. This book brings together journalists and distinguished academic specialists from around the globe to present the findings from their research and to discuss the future of journalism, the shifting quality of its products, its wide ranging sources of finance, as well as the economic and democratic consequences of the significant changes confronting Journalism. The Future of Journalism details the challenges facing the press in contemporary societies and provides essential reading for everyone interested in the role of journalism in shaping and sustaining literate, civil and democratic societies. This book consists of special issues from Journalism Studies and Journalism Practice.

Abortion across Borders Christabelle

Sethna 2019-03-26 Contributors: Barbara Baird, Niklas Barke, Anna Bogic, Hayley Brown, Lori A. Brown, Cathrine Chambers, Ewelina Ciaputa, Gayle Davis, Mary Gilmartin, Agata Ignaciuk, Sinéad Kennedy, Lena Lennerhed, Jo-Ann MacDonald, Colleen MacQuarrie, Jane O'Neill, Clare Parker, Christabelle Sethna, Sally Sheldon

Art Entrepreneurship Mikael Scherdin

2011 This pioneering book explores the connections between art and artistic processes and entrepreneurship. The authors

expertly identify several areas and issues where research on art and artistic processes can inform and develop the traditional field of entrepreneurship research.

The Handbook of Crisis Communication

W. Timothy Coombs 2012-01-10 Written as a tool for both researchers and communication managers, the Handbook of Crisis Communication is a comprehensive examination of the latest research, methods, and critical issues in crisis communication. Includes in-depth analyses of well-known case studies in crisis communication, from terrorist attacks to Hurricane Katrina Explores the key emerging areas of new technology and global crisis communication Provides a starting point for developing crisis communication as a distinctive field research rather than as a sub-discipline of public relations or corporate communication

Handbook of Organised Crime and Politics Felia Allum 2019 This multidisciplinary Handbook examines the interactions that develop between organised crime groups and politics across the globe. This exciting original collection highlights the difficulties involved in researching such relationships and shines a new light on how they evolve to become pervasive and destructive. This new Handbook brings together a unique group of international academics from sociology, criminology, political science, anthropology, European and international studies.

Foreign News Ulf Hannerz 2012-04-26 Foreign News gives us a fascinating, behind-the-scenes look into the practices of the global tribe we call foreign correspondents. Exploring how they work, Ulf Hannerz also compares the ways correspondents and anthropologists report from one part of the world to another. Hannerz draws on extensive interviews with

correspondents in cities as diverse as Jerusalem, Tokyo, and Johannesburg. He shows not only how different story lines evolve in different correspondent beats, but also how the correspondents' home country and personal interests influence the stories they write. Reporting can go well beyond coverage of a specific event, using the news instead to reveal deeper insights into a country or a people to link them to long-term trends or structures of global significance. Ultimately, Hannerz argues that both anthropologists and foreign correspondents can learn from each other in their efforts to educate a public about events and peoples far beyond our homelands. The result of nearly a decade's worth of work, Foreign News is a provocative study that will appeal to both general readers and those concerned with globalization.

Daily Report. West Europe 1993

Sweden Aram Tofek 2022-01-25 The book is about how Swedish political history and political attitudes have affected how Sweden has handled the Covid-19 pandemic.

Leadership and Institutional Reform in Consensual Democracies Jörg Erik Noll 2005

Strengthening Maritime Security Through Cooperation I. Chapsos 2015-07-30 Seventy percent of our planet is covered by water, and even in today's world of instant communication the global community is still heavily reliant on sea-based transport. The maritime domain has always been one of NATO's key strengths, but concerns about maritime security have taken on renewed importance in recent years, and NATO has been forced to re-examine some of its fundamental assumptions about the post Cold War security environment. This book shares some of the research, debates

and findings from a NATO Advanced Research Workshop (ARW); Building Trust to Enhance Maritime Security, held in Geneva, Switzerland, in November 2014. The chapters in the book deal extensively with lessons learned by NATO from a wide range of policies, operations and situations. This maritime experience has been amassed from the Atlantic and Mediterranean to the Baltic and the Black Sea, and even into the Indian Ocean, as well as from the four decades spent defending NATO allies on the high seas during the Cold War. The single most profound lesson learned over the years has concerned the importance of efficient coordination. Structures and mechanisms have been created, not least in recent counter piracy operations, which enable a vast array of actors to work together in an efficient way, and which could prove invaluable in future efforts to counter terrorism and aggression worldwide. The safety of the maritime domain is essential to the freedom and security of all nations, and this book will be of interest to all those whose work involves maintaining that freedom and security.

Fighting the First Wave Peter Baldwin
2021-03-31 Why did the world's nations fight the Covid-19 pandemic in such different ways and with such varying results?

Antisemitism, Islamophobia, and Interreligious Hermeneutics

2018-10-25 Antisemitism, Islamophobia, and Interreligious Hermeneutics: Ways of Seeing the Religious Other examines the hermeneutics of interreligious encounter, investigating the implicit judgments of Judaism and Islam that often arise in contexts of conflict.

The 1912 Stockholm Olympics Leif Yttergren 2012-11-14 King Gustaf V of Sweden inaugurated the Fifth Olympiad at the Olympic Stadium in Stockholm

on July 6, 1912. In the following weeks, 2,380 competitors from 27 nations representing six continents participated in well-organized competitions in perfect weather conditions. The largest Olympics yet at the time, the Stockholm Games have thus gone down in history as the Sunshine Olympics, or "the Swedish Masterpiece." Since that achievement, and despite numerous attempts by other Swedish cities, Sweden has not yet managed to host the Olympic Games again. This work examines the 1912 Stockholm Olympics from a variety of perspectives, exploring the preparations, organization, competitions, participants, and spectators, as well as the continuing significance of the 1912 Games to Sweden and to the future of the Olympic movement.

The Best of News Design 36th Edition

Society for News Design 2015-12-15
The Best of News Design 36th Edition is the latest edition of Rockport's highly respected series. It features the best-of-the-best in news design of arious kinds.

Mejor Del Diseño 2013-11 The Best of News Design 34th Edition, the latest edition in Rockport's highly respected series, presents the winning entries from the Society for News Design's 2013 competition. Bold, full-color layouts feature the best-of-the-best in news, features, portfolios, visuals, and more, and each entry is accompanied by insightful commentary on the elements that made the piece a standout winner. Every industry professional aspires to one day see his or her work in this book.

Numedalslaget Nyheter 1995

Sweden's Dark Soul Kajsa Norman
2019-04-01 Reporter Chang Frick grew up dark-haired in a nation of blonds. Ostracized as a child, in adulthood he set out to expose the hypocrisy of Swedish society. When he revealed the

cover-up of mass sexual assaults on teen girls at a 2015 music festival, he provoked a chain reaction that rattled the nation. Sweden's elites shirked responsibility and rushed to discredit him. Although Sweden boasts the world's oldest free press, its history of homogeneity and social engineering has created a culture where few dare dissent from consensus, those who do are driven to extremes, and there is no place for outsiders--even those who conform. In this groundbreaking book, investigative journalist Kajsa Norman turns her fearless gaze on the oppressive forces at the heart of Sweden's 'model democracy'. Weaving the history of its social politics with the stories of Frick and other outcasts, Norman exposes the darkness in the Swedish soul.

Kvinnors roll i TV-nyheter och underhållningsprogram Else Jensen 1982

London, Europe and the Olympic Games Thierry Terret 2015-10-14 London hosted the Olympic Games for the third time in 2012, a mega-event where the political, economic and social expectations could hardly be compared with the previous London Games of 1908 and 1948. In addition, the Olympic Games went back to Europe in 2012 after a long period where (apart from Athens in 2004) they were held by cities in other continents. In London, the world watched the Games. Continental Europe, however, generated a particular attitude based on the special relations it had developed historically with England. At the crossing point of history, cultural studies and geopolitics, this book provides new insights on the significance of the Olympic Games. It considers that the Games are the right window to look at both the past and the current relations between England and its closest continental neighbours. It will be

ideal for students and academics working in sport sciences, cultural history, political science and European studies; amateur and professional sports historians; Olympic followers and experts in Olympic studies. This book was published as a special issue of the International Journal of the History of Sport.

Understanding the Creeping Crisis

Arjen Boin 2021-05-10 This open access book explores a special species of trouble afflicting modern societies: creeping crises. These crises evolve over time, reveal themselves in different ways, and resist comprehensive responses despite periodic public attention. As a result, these crises continue to creep in front of our eyes. This book begins by defining the concept of a creeping crisis, showing how existing literature fails to properly define and explore this phenomenon and outlining the challenges such crises pose to practitioners. Drawing on ongoing research, this book presents a diverse set of case studies on: antimicrobial resistance, climate change-induced migration, energy extraction, big data, Covid-19, migration, foreign fighters, and cyberattacks. Each chapter explores how creeping crises come into existence, why they can develop unimpeded, and the consequences they bring in terms of damage and legitimacy loss. The book provides a proof-of-concept to help launch the systematic study of creeping crises. Our analysis helps academics understand a new species of threat and practitioners recognize and prepare for creeping crises.

Discursive Governance in Politics, Policy, and the Public Sphere

Umut Korkut 2016-04-29 This book studies the dynamics of political discourse in governance processes. It demonstrates the process in which

political discourses become normative mechanisms, first marking socially constructed realities in politics, second playing a role in delineating the subsequent policy frames, and third influencing the public sphere.

Congestion Taxes in City Traffic

Anders Gullberg 2009-01-01 An examination into Stockholm's seven-month-long trial period with congestion taxes, this collection of articles analyzes the political and administrative processes of the first Swedish congestion experiment and its aftermath. Describing the preoccupations, hopes, and impressions that came along with the trial period and how feelings fluctuated among the inhabitants of Stockholm before, during, and after the trial, this study provide tools for avoiding the pitfalls, with hopes that the successes of the Stockholm Trial will be repeated in other contexts.

Pentecostal Politics in a Secular World

Joel Halldorf 2020-07-08 This book investigates the life and leadership of Lewi Pethrus, a monumental figure in Swedish and international Pentecostalism. Joel Halldorf describes Pethrus' role in the emergence of Pentecostalism in Sweden, the ideals and practices of Swedish Pentecostalism, and the movement's turn to professional party politics. When Pentecostals in the USA ventured into politics, they became allied with the Republican party, and later Donald Trump. The Swedish Pentecostals took another route: while culturally conservative, they embraced the progressive economic politics of the Social Democratic party. During the 2010s, they have also rejected the nationalism of the growing populist movement. Halldorf analyzes and explains these differences between Swedish evangelicals and Pentecostals on the one hand, and the Religious

Right in the USA on the other.

News of the Other Kristina Riegert 2004

A Visual History of HIV/AIDS Elisabet Björklund 2018-07-04 The Face of AIDS film archive at Karolinska

Institutet, Sweden, consists of more than 700 hours of unedited and edited footage, shot over a period of more than thirty years and all over the world by filmmaker and journalist Staffan Hildebrand. The material documents the HIV/AIDS pandemic and includes scenes from conferences and rallies, and interviews with activists, physicians, people with the infection, and researchers. It represents a global historical development from the early years of the AIDS crisis to a situation in which it is possible to live a normal life with the HIV virus. This volume brings together a range of academic perspectives – from media and film studies, medical history, gender studies, history, and cultural studies – to bear on the archive, shedding light on memories, discourses, trauma, and activism. Using a medical humanities framework, the editors explore the influence of historical representations of HIV/AIDS and stigma in a world where antiretroviral treatment has fundamentally altered the conditions under which many people diagnosed with HIV live. Organized into four sections, this book begins by introducing the archive and its role, setting it in a global context. The first part looks at methodological, legal and ethical issues around archiving memories of the present which are then used to construct histories of the past; something that can be particularly controversial when dealing with a socially stigmatized epidemic such as HIV/AIDS. The second section is devoted to analyses of particular films from the archive, looking at

the portrayal of people living with HIV/AIDS, the narrative of HIV as a chronic illness and the contemporary context of particular films. The third section looks at how stigma and trauma are negotiated in the material in the Face of AIDS film archive, discussing ideas about suffering and culpability. The final section contributes perspectives on and by the filmmaker as activist and auteur. This interdisciplinary collection is placed at the intersection of medical humanities, sexuality studies and film and media studies, continuing a tradition of studies on the cultural and social understandings of HIV/AIDS.

MANAGING CRISES Uriel Rosenthal
2001-01-01 In this book, the editors, with 25 notable contributors, expand the knowledge of crisis management, focusing on case studies of high-profile events that have occurred in recent history. Part One of the text aims at theoretical development through empirical case studies and also postulates a crisis typology and charts specific theoretical and administrative challenges. The 'case bank,' which comprises the bulk of the book, is presented in four additional sections. The first deals with the development of crises and compares the infamous Watts riots with the 1992 L.A. riots. It also analyzes the fragmented and complex international environment that allowed the 'safe area' in Bosnia to be overrun by Bosnian Serbs in 1995. The final chapter chronicles the incredible human costs of mismanaged crisis in the Rwanda massacres in 1994. The second section explores the many decisional dilemmas that confront crisis managers. Cases include the fire at the Piper Alpha oil rig; the 1999 Turkish earthquakes; the Eindhoven, Holland plane crash; and crisis management of the Mad Cow epidemic disease in the

U.K. The third section explores the long-term dimensions of crises and crisis management and particularly the development of national traumas such as the assassination of Sweden's Prime Minister Olaf Palme in 1986, the 1992 Amsterdam air crash, and the TWA flight 800 disaster in 1996. The final section shifts focus to future scenarios such as speculative information technology disasters, potentially devastating viral epidemics, deteriorating environmental and societal conditions in Russia, the southwest U.S. coming water shortage, and the outlook for Japan, one of the world's most disaster-prone countries. Summarizing the research findings of the past decade, the authors describe patterns in the paths toward crises, the dilemmas and coping mechanisms that emerge during the thick of crisis, and, very importantly, the pathways that lead away from crisis.

Kierkegaard's Influence on Literature, Criticism and Art Jon Stewart 2013 Vol. 2 is dedicated to the use of Kierkegaard by later Danish writers. Almost from the beginning Kierkegaard's works were standard reading for these authors. Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings. These included the theoretical leader of the movement, the critic Georg Brandes, who wrote an entire book on Kierkegaard, and the novelists Jens Peter Jacobsen and Henrik Pontoppidan
Earthcare Carolyn Merchant 2014-02-04 Written by one of the leading thinkers in environmentalism, Earthcare brings together Merchant's existing work on the topic of women and the environment as well as updated and new essays. Earthcare looks at age-old historical associations of women with nature, beginning with Eve and continuing

through to environmental activists of today, women's commitment to environmental conservation, and the problematic assumptions of women as caregivers and men as dominating nature.

Times of History, Times of Nature
Anders Ekström 2022-02-11 As climate change becomes an increasingly important part of public discourse, the relationship between nature and time is changing. Nature can no longer be considered to be a slow and immobile background to human history,

and the future can no longer be viewed as open and detached from the past. *Times of History, Times of Nature* engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts. Focusing on the history of knowledge, media theory, and environmental humanities, this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change.
